

MATH 12 PRECALCULUS

COURSE OUTLINE

Teacher: Ms. Stusiak
Email: stusiak_b@surreyschools.ca

Websites: www.schoolology.com
Stusiakprecalc12.wikispaces.com
www.math30.ca

MATERIALS NEEDED

- Lined paper and graph paper
- Pencils, erasers and colored pens
- **Graphing** calculator

MARK DISTRIBUTION

- Class mark is 80% of your total mark
 - The class mark will consist entirely of your test and assignment marks
- Final Exam is 20% of your total mark

EXTRA HELP

- Extra help is available through the peer tutoring system or by appointment with the teacher.

HOMEWORK

- All homework assignments are listed in the homework outline. It is your responsibility to stay caught up with homework at all times.

QUIZZES

- There will be a quiz every Friday for feedback on the material learned that week. Quiz corrections are due the following Monday.

ASSIGNMENTS

- Five assignments will be given out during the course. These will consist of questions that are typically more challenging than regular homework or test questions.

TESTS

- Test days are listed at the bottom of the homework outline. Each test is cumulative; it will include all of the material from the term up to that date.
- Each test during the term can be used to replace previous test marks IF:
 - Homework assignments have been completed
 - Full corrections are done in the proper format for the previous tests and quizzes
 - The material from the previous test is on the test that is replacing it
 - Example: A test from term 2 cannot replace a mark from term 1.
